Educations

Pranveer Singh Institute of Technology

Bachelor of Technology - Computer Science and Engineering - **CGPA - 7.6**

December 2022 - June 2026

Kanpur, India

Mother Teresa Mission Higher Secondary School

Intermediate - Computer Science - **Percentage - 87.16%**

April 2020 - March 2021

Kanpur, India

Mother Teresa Mission Higher Secondary School

High School - Computer Science - **Percentage - 87.16%**

April 2018 - March 2019

Kanpur, India

Projects

TaskFlow - Team Task Manager

[Live](#) | [GitHub](#)

- Developed a full-stack collaborative task management platform featuring secure JWT authentication and RBAC-based project access.
- Created a Kanban board with drag-and-drop functionality for tracking workflows across Todo, In Progress, and Done stages.
- Engineered RESTful APIs for project, task, notification, and user management utilizing Express.js and MongoDB.
- Designed a responsive UI with an analytics dashboard, dark/light theme support, and optimized state management using TanStack Query and Zustand.
- Tech Stack: **React, Node.js, Express, Tailwind CSS, MongoDB, Vite, Mongoose, JWT**

FlashCard Engine

[Live](#) | [GitHub](#)

- Developed an AI-powered web application to convert PDFs into flashcards, leveraging spaced repetition (SM-2) to enhance learning efficiency.
- Implemented client-side PDF parsing and optimized the AI pipeline for low latency and cost efficiency.
- Created adaptive practice logic with dynamic scheduling and rating-based learning feedback.
- Engineered a secure architecture using Next.js API routes and localStorage for rapid, scalable deployment.
- Tech Stack: **React.js, Next.js, Node.js (API Routes), OpenAI API, pdf.js, Tailwind CSS, localStorage**

Whiteboard Application

[GitHub](#)

- Developed a dynamic whiteboard application using React and HTML5 canvas, styled with Tailwind CSS, and deployed on Vercel.
- Enabled real-time collaboration for multiple users to draw, write, and interact on a shared canvas with integrated tools including pen, eraser, sticky notes, shapes, and file sharing.
- Gained hands-on experience with JavaScript, React.js, Tailwind CSS, and HTML5 canvas.
- Tech Stack: **HTML, CSS, JavaScript, React**

Technical Skills

- Core Concepts:** Data Structures and Algorithms, Object Oriented Programming, Machine Learning, Artificial Intelligence, Database Management System, Web Development
- Databases:** MongoDB, MySQL
- Frameworks Libraries:** Node.js, React, Express, Django
- Languages:** C++, Core Java, C, Python, HTML, CSS, JavaScript, SQL
- Tools Platforms:** Git, GitHub, VS Code, Eclipse, Oracle

Achievements and Certifications

- Successfully solved 500+ problems on platforms including LeetCode, Coding Ninja, CodeForces, HackerRank, and AlgoZenith.
- AlgoZenith Certified:** Chrome Extension - AZ Problem Tracker.
- AlgoZenith Certified:** AZ Winter Hackathon 2024 - AI is Coming!
- Salesforce Certified:** Trailhead Agentblazer.
- Web Development Certified:** 100xDevs (Harkirat Singh).
- Data Analytics and Essentials Certified:** Cisco
